Get Ready to Ride the Spine
The North Natomas TMA hosts an open trail event for the entire family

The North Natomas Transportation Management Association (NNTMA) is celebrating the newly completed 4-mile trail that runs north-south from Elkhorn Boulevard to Airport Road. Join us on May 1st from 2-4pm for an open trail event. That means you can jump on the trail wherever you like.

Grab your family and friends and get ready for a good time and some good exercise. The celebration is pedestrian-cycling-scooting-dog friendly. Hosted stations will be set up along the trail with music, games, prizes and refreshments. Complete the passport-to-fun by visiting all the booths for a special prize. This is the perfect way to kick-off May is Bike Month and log some miles.

“The North Natomas TMA is very passionate about this trail project,” said Becky Heieck, Executive Director of the NNTMA. “We expect this celebration to not only bring the North Natomas community together, but to spotlight this trail to the greater Sacramento area. Open trail events like this are the first step in leading to larger open street events in the future.”

About the North Natomas Transportation Management Association

The North Natomas Transportation Management Association is a nonprofit organization with the mission to foster transportation behaviors that enhance placemaking in our community through advocacy, programs, education, and services.

The organization is responsible for services such as the commuter Flyer Shuttle, which takes North Natomas residents to and from Downtown Sacramento, and 50 Bikes for 50 Kids.

The NNTMA also closely partners with schools and other organizations to promote walking and cycling, and has partnered with the City of Sacramento in the completion of many local transportation projects. Connectivity, collaboration and community feedback are woven into almost every aspect of the NNTMA's efforts so please contact Communications & Program Coordinator Abbey Harding at abbey@nntma.org for more information about our mission and programs.
