

WHY I RIDE *Bobbie Chevis*

I STARTED RIDING the shuttle about 3 years ago after parking downtown for many years.

Riding into work in the morning, I realize how much of Sacramento I have a chance to see while on the shuttle. Just the other day, the river was more beautiful than usual – smooth as glass. With the Flyer Shuttle I can soak up the Sacramento landscape without distraction.

One of the best things about riding the Flyer is meeting so many of my neighbors. I refer to them as being my “bus buddies”. I truly believe our fantastic driver, Dee, is

responsible for bringing everyone together. Dee pretty much knows everyone’s name and where they want to be picked up and dropped off. She calls us by our first names, knows the names of our pets and inquires about them. She really cares about her riders, which tends to bring everyone together. Our NNTMA shuttle is more like a small neighborhood of friends.

Each weekday morning and afternoon, the Flyer runs peak-period scheduled routes between North Natomas and downtown Sacramento.

Visit NNTMA.org for schedules and maps.
