## WHY I RIDE *Shilo Wilson*

**IT IS VERY EASY TO ACCESS THE FLYER;** it picks me up and drops me off so close to home. The shuttle routes are located throughout our neighborhoods so it's a breeze to hop on wherever you live. I also love that the route times are much shorter than other forms of transit available in the area. Riding the Flyer has enabled me to get to and from home faster so I can spend more time with my son and family.

Riding the Central Route for the past year has provided me with extra time and money in my pocket so I can focus on the truly important things in life.

On top of all that, the drivers and other riders are so nice!
